EDUCATION

The University of Georgia, Athens, GA — December 2023-Bachelor

- **Majors**: Bachelor of Science in Computer Science
- **Scholarships:** Hope Scholarship (100% of tuition)
- **Relevant Coursework**: Software Engineering, Web development, Data structures, Mobile Software development, Computer Networks, Computer Graphics, Computer Architecture, Theory of Computing, Software development, Linear Algebra

PROFFESIONAL EXPERIENCE

Quality Assurance Engineer, Amdocs — April 2024-October 2025

- Designed and executed manual and automated test suites for critical business workflows, including billing and customer data validation, ensuring stability of new feature releases
- Collaborated with developers and product owners in an Agile environment to define test plans, streamline defect triage, and accelerate release cycles
- Performed system-level testing in Linux environments, leveraging SQL and internal frameworks to validate complex billing processes and transaction data flows
- Onboarded and trained new team members, ensuring quick adaptation to tools and testing processes
- Utilized postman for API testing, monitored event-driven workflows with Kafka, analyzed distributed system logs via Splunk to identify and resolve defects in production-like environments, used Couchbase for multi-system data validation, and supported deployments of microservices using Jenkins and Github

Software Engineer Intern, Amdocs — June 2023- August 2023

- Helped build a design system consisting of accessible, adaptable, user-friendly UI components and full pages for Cricket developers to use throughout the Cricket website using HTML, CSS, Bootstrap, and JavaScript
- Developed skills in implementing A11Y accessibility, creating UI designs for users and developers, and working within Scrum

PROJECT EXPERIENCE

Ride Share App — November 2023

- Built an android application letting users create and accept ride requests and offers using Android Studio, and Google Firebase
- Worked with a partner using agile methodology to create the app. Implemented Google Firebase to create a database where all old or newly created ride requests and offers would be saved and later be pulled for display
- Deepened my understanding on Android app development, Java development, creating user-friendly applications, and working with Google real-time database

E Booking Cinema App — March 2023

- Worked within a Scrum to build a full stack application mimicking a cinema site to order movie tickets using React and Flask
- Focused on the frontend, building a multi-page website which included create and edit profile, log in, purchase tickets for movies, and checkout functionality which all connected to a mongoDB to store all the information
- Gained substantial knowledge in working with React, making full stack applications, making an API and using it, connecting a backend to the frontend, and working with a team over a long period of time

HONORS & AWARDS

Presidential Service Awards — May 2018 & 2019

- Completed over 250 hours of community service in 2018 and 2019
- Received the gold award, the highest possible for the award

ADDITIONAL EXPERIENCE & COMMUNITY INVOLVEMENT

TSA & FBLA — August 2018 – May 2019

- Competed in technology competitions involving 3D animation and won 3rd in the state of Georgia
- Gained valuable knowledge on 3D design and animation, working in teams, and better communication and coordination skills

Alpha Epsilon Pi Fraternity — August 2019 - Present

- Oversaw Israeli affairs and involvement in the Fraternity
- Learned leadership skills and made connections with AEPI members nationally

Member of the Israeli Scouts — September 2016- May 2019

- Handled the budget of the organization and teamed up with others to accomplish their goals
- Helped plan community events and organized materials for 150+ Israeli scouts members

TECHNICAL SKILLS

- **Programming Languages:** React, Java, SQL, JavaScript, HTML, Bootstrap, CSS, Python
- **Testing/Tools:** Postman, Kafka, Splunk, Github
- **Software:** VSCode, Unreal Engine 5, Maya Autodesk, MS Excel, MS Word, MS PowerPoint
- **Additional:** Test automation, API testing, Agile/Scrum, frontend development

INTERESTS: Cooking, music, computers, video games, good television, and Christopher Nolan films
